

Dear Sir/Madam,

We would like to introduce VENUS ENGINEERS established in 2015 as a growth oriented, professionally managed service provider with well-equipped tools and tackles for carrying out Air compressor inspection and services.

We are Authorized channel partners for Ingersoll Rand make Evolution Screw compressors and Anest Iwata Motherson Piston Air compressors, vacuum pumps for Karnataka region. Also, we are specialized in offering spares and service for Atlas Copco; Chicago Pneumatics & Kaeser make screw compressors. We also take up supply of air driers and air piping works as per customer requirements.

Our office is located in Bangalore with facility for storing spares. Also, we have our godown for stocking compressors. We are here with enclosing our profile of our team, services offered by Venus Engineers, customer list and quality policy for your kind perusal.

We request you to provide an opportunity to associate and serve your esteemed organization.

Kindly revert if you need any information. We assure our best services.

Regards,

Revati R. N.

## Ingersoll Rand Introduction:

**Ingersoll Rand** is a world leader in creating and sustaining safe, comfortable and efficient environments. **Ingersoll Rand** is a diversified industrial enterprise having its presence in India since 1921.

With its 135+ years of history of Innovation, Ingersoll Rand brings yet another high performance compressors & compressed air quality managing products to the market, **Evolution** to cater to industry specific needs. This new product has been designed to provide ease of operation, low maintenance and reliable air supply to wide spectrum of customers from varied verticals including automobile, vehicle service stations, textile, color/rice sorting, sponge iron, plastic and rubber manufacturing etc. **Evolution** offers value for money solutions to a wide range of applications.

**Evolution** air compressor's innovative products range from air compressor to air dryer, air filters and air receivers. **Evolution** provides products, services and solutions that enhance our customers' energy efficiency, productivity and operations.

The foundation of **Evolution's** growth will be customer driven innovation, a robust infrastructure to support after sales services, a significant investment in the facilities to transform them into world class manufacturing operations and a 'Customer First' and 'Solutionizing' mindset. **Evolution** today has a wide network of sales & service offices and has highly experienced and qualified engineers spread across different regions of the country. All manufacturing facilities in India are ISO 9001 certified.

## Anest Iwata Introduction:

**Anest Iwata Motherson** is the leading manufacturer of **Lubricated, Oil Free** and **Scroll** Air Compressors, ranging from **0.5 HP to 30 HP**. Anest Iwata Motherson Ltd., (AIML) is a joint venture between **Anest Iwata-Japan**, a world leader in the Lubricated, Oil Free and Scroll compressor and **Sumi Motherson** Group, an Indian conglomerate with presence in various sectors. These Compressor are being manufactured in a State-of-the Art plant in India and Complete know how for design & manufacturing of the compressor is provided by ANEST IWATA CORPORATION – JAPAN.

### **LUBRICATED COMPRESSOR – QUADRA EDGE TECHNOLOGY**

Aim's Quadra Edge technology compressors have been extensively tested in extreme environment conditions .These have advantage of Special honing of cylinders results in:

- )] Low friction between cylinder and piston rings.
- )] High durability due to less wear and tear of parts.
- )] Continuous and heavy duty operation

### **OIL FREE COMPRESSOR – CMF TECHNOLOGY**

Critical Maintenance Free (CMF) technology is the only of its kind in the world that gives you combination of oil free air continuous and heavy duty running and No risk of seizure. As a Patent technology

Anest Iwata, Japan, it brings in: - →Safety → Heavy Duty Operation →100 % Oil Free Air

#### **1. SCROLL COMPRESSORS**

The Scroll mechanism represents the most efficient Air compression principle and is referred as 'The Future of Air'. It is the only compressor in the world to give the following features in a single unit;

- )] Guaranteed 100% Oil Free Air → Low Noise Vibration
- )] Energy efficiency (due to the pioneering Modular structure of scroll Compressors, Power Consumption will be equals to the Power Demand and thus 'you pay for what you use')
- )] PLC based programmable operation & predictive Maintenance

Anest Iwata compressors are subject to stringent QUALITY ASSURANCE SYSTEM at world class testing facility specially designed and manufactured to perform under the tough Industrial conditions and therefore you get the following benefits:-

- )] Air – Cooled Compressor for continuous duty application.
- )] Highest out put of compressor air per Hp i.e. Low power Consumption.
- )] Very Low maintenance Cost. → Very Low vibration resulting in Low Noise Level.
- )] Desk Top Model (Used for Ventilators, Labs, Packing ,Hospitals &Etc.)

Authorized channel partners for Evolution by Ingersoll rand and Anest Iwata Air compressor

No. 989/A, 3rd Stage, 3rd Block 4th Main,

## SERVICES OFFERED BY VENUS ENGINEERS

- ) Preventive maintenance for screw compressors
- ) Breakdown maintenance for screw compressors
- ) Annual maintenance contracts for screw compressors
- ) Converting PLC based control system to electro mechanical control system.
- ) De-scaling of coolers
- ) Re-location of compressor units and their commissioning
- ) Suggesting customers to choose right compressors for their application.
- ) Under take piping works
- ) Supply of compressor spares
- ) Supply of air receivers
- ) Supply of line filters
- ) Supply and services of air driers
- ) Educating customers to maintain the critical spares
- ) Support customers for re-winding of motors
- ) Industrial Electricals
- ) Industrial Electronics

## Customers we Cater To

- ) General Engineering.
- ) Agro Industries
- ) Pharmaceutical Industries
- ) Hospitals
- ) Garments Industries
- ) Food Processing Industries
